

Licence plate holder Venus 520s • Item-no.: 104-000.02

1. Screw the licence plate holder suitable, as required quarry out the washer **(A)** and use it while screwing.
2. Installation kit: 4 clips per licence plate holder (3 standard clips **(B)** + 1 lock clip **(C)**).
3. Two standard clips **(B)** are pre-installed on the right and left of the holder. Press down these two clips. Insert and press on the licence plate. At final assembly - when the licence plate is car-mounted - quarry out the third clip with the lock symbol **(C)** and insert at the middle of the bottom. (The lock clip **(C)** cannot be open after using).
4. Push standard clips upwards with the special wrench. Done.
